ONLINE EVENT

Project Managers Global Summit 2024

India @ 2047

Realizing aspirations through competent Project Management

30-31 AUGUST 2024

GOLD SPONSORS

SILVER SPONSORS

LARSEN & TOUBRO

The Project Managers Global Summit 2024 will be an Event for participants from diverse sectors and will offer excellent exposure to the latest developments and emerging tools, techniques and competences that will be vital for all Project Professionals and stakeholders in being successful contributors to the Nation Building Missions envisaged under India's Vision 2047.

Industry Captains, Policy Chiefs and national and international experts from Energy, Green Hydrogen, E-Mobility, Space, Aeronautics, Semiconductor, Climate action, Defence, New technologies and AI will present valuable insights and updates through Lectures and Panel discussions.

ABOUT THE SUMMIT

India stands at a pivotal moment in its history, as we as a nation set our sights on an ambitious and transformative vision for India @ 2047, the year which marks 100 years of independence. This vision envisages a nation that is not just economically prosperous and technologically advanced, but also socially inclusive, environmentally conscious, and a global leader.

Translating this vision into reality requires a cornerstone - Competent Project management aligned with Mission oriented Leadership. It is therefore imperative for each Project professional to be future ready and equip themselves with the emerging competences, tools and techniques that will be vital for the ensuing projects and missions. Project oriented industries must address Capacity Building requirements at an organizational level, to enhance competitiveness and contribute to India's aspirations for global leadership in key sectors.

The Summit will offer excellent exposure to the latest developments, action plans and emerging tools, techniques and competences that will be pivotal for this transformation. Industry Captains, Policy Chiefs and national and international experts from Energy, Green Hydrogen, E Mobility, Space, Aeronautics, Semiconductor, Climate action, Defence, New technologies and AI will present valuable insights and updates through Lectures and Panel discussions. Key outcomes and recommendations will be shared across the industries and institutions.
