association

[Edition : February 2025]

Earning the IPMA Level D Certification is a significant milestone for professionals, as it provides international recognition of their project management capabilities.

This achievement reinforces Siemens' dedication to fostering a culture of excellence, ensuring its workforce remains at the forefront of industry best practices. The certification also strengthens Siemens' project execution standards, enabling teams to deliver greater value to stakeholders.

Building on this success, Siemens and PMA India will continue to conduct more batches of the IPMA Level D Certification program throughout the year.

PMA India is delighted to announce the successful completion of the Siemens-IPMA Level D Certification program, a testament to Siemens' unwavering commitment to professional development in project management. Conducted in collaboration with PMA India, this prestigious certification program has empowered participants with globally recognized project management competences. Participants engaged in interactive discussions, case studies, and real-world project simulations to enhance their practical understanding.
