

PMA India Special Bulletin

4th International Conference 2025

February 13, 2025 | Radisson Hotel, Kuwait

The 4th International Conference 2025, organized by the Kuwait Society of Engineers in collaboration with the Indian Engineers Association (IEA) in Kuwait, focused on 'Modern Trends in Manufacturing Technology and the Role of Engineers in Reducing the Global Warming Phenomenon'. During this event, PMA signed 2 MoUs, one with Kuwait Society of Engineers and another one with IEI Kuwait Chapter to spread our programs in Kuwait.

The conference was honored by the presence of Dr. A. Sivathanu Pillai, President of PMA India & Founder of BrahMos Aerospace, who served as the Guest of Honor and Keynote Speaker. He delivered an insightful address on modern manufacturing technology and its pivotal role in sustainable development, aligning with United Nations resolutions.

The conference also welcomed distinguished Guests of Honor, including Sheikha Sheikha Ali Al-Jaber Al-Ali Al-Sabah, owner of Dar Atma, and Ms. Anchita Kethwas, Secretary for Consular Affairs at the Indian Embassy.

Our Regional Director (South) Mr T Srinivasan was also present at the event and was honored for their contributions.

This prestigious event provided a platform for industry leaders, policymakers, and engineering professionals to exchange knowledge and explore strategies for a more sustainable and technologically advanced future.
