

Continued Success: IPMA Level D Certification Batches 2, 3 & 4

PMA India is delighted to announce the continued success of the Siemens-IPMA Level D Certification program across Batches 2, 3, and 4. This prestigious certification program, conducted with Siemens, represents a testament to Siemens' unwavering commitment to professional development in project management.

Earning the IPMA Level D Certification is a significant milestone for project professionals, as it provides international recognition of their project management capabilities. This achievement reinforces Siemens' dedication to fostering a culture of excellence, ensuring its workforce remains at the forefront of industry best practices.

PROGRAM HIGHLIGHT

The certification program has consistently delivered exceptional results across all batches, with participants demonstrating remarkable growth in their project management competences:

Participants engaged in interactive discussions, analyzed real-world case studies, and applied project management methodologies to practical situations, significantly enhancing their problem-solving capabilities and professional confidence.

Building on this continued success, Siemens and PMA India will conduct additional batches of the IPMA Level D Certification program throughout the year, furthering our mission to develop world-class project management capabilities across India.
