

project managers global summit 2019 on

“Sustainability through Competent Project Leadership ”

20 - 21 August 2019, New Delhi, India

Organized by

Indian Member of

PMA Project Managers Global Summit 2019

The Project Managers Global Summit 2019 will be an event for participants across a wide range of sectors, and will offer an excellent exposure to Best Practices, Success Stories and latest updates in Project Management, through Lectures, Presentations and Panel Discussions by Industry Stalwarts, Policy Makers, national and international Thought Leaders.

The Summit provides a global platform for sharing and adoption of new techniques, competences and best practices for effective Leadership in Project Management, so that Projects across all core sectors, regardless of their scale, coverage or type can truly become instruments in achieving sustainable development.

 - Industry Best Practices – Bridges & Highway Projects
 - Industry Best Practices – EPC Projects
 - Industry Best Practices – Smart City Projects
4. Sustainability & Innovation:
 - Project Leadership in the New age context
 - Integrating a Systems approach towards Innovation

About the Summit

Sustainability has become one of foremost objectives for all Projects and Programs of today. Environmental considerations, mass urbanization, emergence of New Technologies, Disruptive Business Models and Industry consolidation are just some of the key factors due to which Project-oriented Organisations, Institutions and Departments are integrating sustainability in their Project strategy. In other words, achieving sustainability/sustainable development goals is now a crucial factor for Project Success. Consequently, Sustainability is one of the most important issues that needs to be taken into account by the Leadership in their decision making process at various levels in Project-oriented organisations.

From a Project perspective this necessitates that the role of effective Leadership in Project Management should go beyond delivery of the project alone, and needs to incorporate concepts like Project/Product Life Cycle orientation as parameters of overall success. Sustainability is not a fixed goal but a direction of movement and a key element of sustainability is "change" towards a more sustainable business/economy/society, therefore consistent and effective leadership is crucial for achieving Project and Program Management success in the new age.

Set in the backdrop of Government of India's strong focus on development through various leading Missions and Programmes such as Make In India, Smart Cities Mission, Pradhan Mantri Awas Yojana, Bharatmala, Sagarmala, National Solar Mission, Digital India, the Summit seeks to bring out the need for the contributing core sector industries to integrate Sustainability into their Projects. Prominent National and International PM Experts, Industry stalwarts, Policy Makers and Innovation leaders will share their Success Stories through Lecture presentations, Panel Discussions and Interactive Sessions. New techniques, competences and best practices in effective Leadership for developing Sustainable Projects will be discussed at the Summit and Success Stories will be shared, so that Projects across all core sectors can truly becomes instruments in achieving sustainable development.

Project Management Associates (PMA)

PMA is a not for profit registered Society, established in 1993, with the vision to 'Create a Project Oriented India.

PMA, as a National Association of Project Managers in India is actively engaged with the Industry, Academia and Govt. Departments to promote competence based Project Management. PMA strives to promote competence at different levels to facilitate successful completion of all projects.

Competence building and development of Project Management Mindset across Industry, Academia and Government are undertaken by PMA through its global and national level events, certification, membership, workshops etc. Classroom trainings are conducted by independent accredited organizations/freelance individuals qualified for the task. PMA actively recognizes the spirit of excellence among Projects, Young Project Managers, Project Leaders and Organizations through Excellence Awards.

PMA is the Exclusive Indian Member of the International Project Management Association (IPMA), a Federation of Member Associations representing 72 countries (www.ipma.world) and a leading global authority on Project, Program & Portfolio Management. Appropriate best practices in Project Management, learnt and shared by IPMA, from their wealth of experience and knowledge base, are passed over to Project practitioners and Academia by PMA.

PMA has a wide network of Members. Ministry of Shipping and Road Transport & Highways, GoI and over 75 leading organisations including from Maharatnas, Navratnas and Private companies are PMA's Life Members. With its headquarters at New Delhi, PMA's wide network of 14 Chapters across India and regional offices lend robust support to its mission.

IPMA's 4 Level Certification system in Project Management is exclusively administered and awarded in India by PMA through its Certification Body - PMA Cert. Close to 7000 professionals across a range of leading organizations in India, have been awarded IPMA Certifications. PMA also offers industries a unique and comprehensive organization level assessment of Project Management Maturity.
